SB 380, An Act Concerning The Form Of A Motor
Vehicle Insurance Identification Card

The Insurance Association of Connecticut, IAC, supports the concept contained in SB 380, An Act Concerning The Form Of A Motor Vehicle Insurance Identification Card.

Insurance consumers want the option to receive their motor vehicle identification cards via electronic means. The insurance industry fully supports being able to offer their customers electronic proof of coverage with some restrictions. The ability to obtain one's vehicle identification card in such a manner should be optional for both the insurer and insured. Also, if an insured elected to receive their identification card in such a format, the insured should be permitted to use such electronic means to provide proof of insurance to law enforcement when so requested.

The IAC would appreciate an opportunity to work with the proponent as this bill advances.
